has never
been easier!***

SIGNIFIKANT e-Commerce

SIGNIFIKANT E-COMMERCE IS A COMPLETE ONLINE E-SHOP / WEB SHOP FOR PRESENTING YOUR SPARE PARTS, TOOLS, ACCESSORIES AND OTHER PRODUCTS ONLINE AND LET YOUR CLIENTS OR DEALERS ORDER ONLINE. IT UNIQUELY COMBINES AN ONLINE SHOPPING SOLUTION WITH INTERACTIVE SPARE PART CATALOGUES.

KEY BENEFITS

- Increase order sizes
- Offer one-stop shopping
- Monitor orders and shipments
- Increase customer satisfaction
- Adjust stock based on statistics and wish lists
- Enhance competitive advantage

Spare parts web shop

If you are an OEM: Complement your parts catalogue with a web shop for presenting and selling your other products and accessories.

If you are a provider of components or parts: present and allow orders of your products with information on usage, downloadable facts sheets, and possibly downloadable CAD files.

The e-Commerce solution key features:

- Mobile e-Commerce
- Multi vendor / Multi store / Multi brand
- Multi lingual / Multi currency
- Search Engine Optimization (SEO)
- Template based layouts with content management
- Support for modules, variants and service kits
- Discounts, campaigns and tier prices
- Hide prices for non-registered customers

- Anonymous checkout / One-page checkout
- Multiple payment and shipment methods
- Unlimited number of parts or products

Modern technology

Signifikant e-Commerce is based on modern Microsoft .Net technology and the open source product NOP Commerce.

About Signifikant

Signifikant is an IT-provider focused on delivering state-of-the art software solutions. Within PLM, Signifikant provides a complete platform for manufacturers after market information.

Signifikant's Vision with the Signifikant product suite is to Make Your Aftermarket into a Profit Machine.

- Your Customers are demanding more product information. Demands on more information and quality information are increasing dramatically. Margins on after sales are more and more important.
- Product Life Management (PLM) - systems needs to be complimented. PLM-solutions do not take care of the aftermarkets information requirement. Information needs to be reworked for the aftermarket.
- Standards exist and should be used. Product companies are responsible for all information including sub-suppliers components. Product companies are doing big investments to recreate their supplier's information into their own format - here are your solution!

The Aftermarket Software and spare part catalogue – An IT-solution for the right spare part to the right machine, increased customer trust
