

The PDS Vision Group invests in CAE and partners with EnginSoft S.p.A

Gothenburg 31st of January 2020

The PDS Vision Group AB (PDSVISION) is pleased to confirm that it has agreed to acquire EnginSoft Nordic AB from the current owners EnginSoft S.p.A - An agreement that will see the companies collaborating together on software sales and professional services.

With the announcement of this investment PDSVISION continues to strengthen its core CAE business.

EnginSoft Nordic AB is headquartered in Lund, Sweden with an established network of CAE professionals from all over the world. Retaining and operating under its own brand – EnginSoft Nordic AB will continue to focus on its specialized services within CAE applications, flow analysis, materials compliance and multi objective design optimization.

“I am very pleased to be able to extend the services we offer to our customers with applications that can substantially differentiate their CAE strategy. We are also happy to engage in a closer relationship with EnginSoft S.p.A and have access to the vast base of CAE expertise the group can offer”
stated Johan Klingvall, CEO of the PDS Vision Group.

Håkan Strandberg, CEO EnginSoft Nordic AB, commented,
“As part of the PDS Vision Group we will be able to further develop and strengthen our services to our current customer base, support the PDSVISION customers with their CAE challenges, and attract new customers with our new joint offering.”

Stefano Odorizzi, CEO of EnginSoft S.p.A concluded,
“This announcement dovetails with EnginSoft’s strategy to strengthen our core markets while enabling growth on our value-add CAE products by collaborating with larger partners.”

About the PDS Vision Group:

PDS Vision Group (PDSVISION) is a leading provider of products and services within the areas of computer-aided design (CAD), product lifecycle management (PLM), service lifecycle management (SLM), Internet of things (IoT) and computer-aided engineering (CAE).

It is a fast-expanding group of companies with divisions in Sweden, Germany, Denmark, Norway, Finland, Great Britain and the USA, providing a network of highly trained specialist teams and professional solutions that help customers globally.

PDSVISION main focus is centred on services based around ANSYS solutions for CAE, and in partnership with PTC it provides solutions for CAD/PLM and the industrial Internet of Things (IIoT). PDSVISION has also successfully developed and released its own series of extensions and applications that help streamline the use of these products.

As an established and certified Value-Added Reseller, PDSVISION provides support services and training, with a strong focus on “best practices” in different disciplines, making it a complete provider of professional services within all the various subsystems required to support product development. About EnginSoft

EnginSoft is a premier consulting firm in the field of Simulation Based Engineering Science (SBES) with a global presence. It was founded in 1984 from a previous structure that had been active since 1975 and has been at the forefront of technological innovation ever since, remaining a catalyst for change in the way SBES and CAE technologies in general are applied to solve even the most complex industrial problems with a high degree of reliability.

The company comprises groups of highly qualified engineers, with expertise in a variety of engineering simulation technologies including FEM Analysis and CFD, working in synergic companies across the globe. The company is present in Italy, France, Germany, the UK, Sweden, Turkey and the U.S.A. and has a close partnership with synergetic companies located in Greece, Spain, Israel, Portugal, Brazil, Japan and the U.S.A. It works across a broad range of industries that include the automotive, aerospace, defence, energy, civil engineering, consumer goods and biomechanics industries to help them get the most out of existing engineering simulation technologies.
